Please reject NAB's petition 04-160. I have been a subscriber of XM Satellite radio for 18 months and I cannot speak high enough of thier service. It is hands down the best service to come out since the wide spread public use of the internet. It is of the highest value for the dollars I spend and in no way should be effected by lobbyist for the broadcasting assn which cannot come close to the qualirty and value that I get from XM Satelite Radio. Thank You-Tim Cole
